

The *Occupational Health and Safety Act* at a Glance

The Ontario Nurses' Association (ONA) believes it is the right of all its members to work in a healthy and safe work environment. It further believes in the pursuit of the highest degree of physical, mental and social well-being of workers in all occupations.

As one of the largest health-care unions in the province and in the country, ONA believes it is part of its mandate to exercise a strong leadership role in achieving progressively greater gains in the field of occupational health and safety. As a leader, you have an important role in ensuring all members have a healthy and safe work environment.

The following chart is an “at a glance” chart highlighting provisions in the *Occupational Health and Safety Act (OHSA)* designed for representatives to use when a quick reference is needed.

Section	Summary
9. (2)	When a Joint Health and Safety Committee (JHSC) is required
