(g) Applies to all Scheduling Models

Holiday Season Scheduling

The Hospital will endeavour to follow the master rotation. The scheduling regulations may be adjusted by the Hospital between December 15th and January 10th to facilitate time off at either Christmas or New Year's. The Hospital will endeavour to provide six (6) consecutive days but not less than four (4) consecutive days off at either Christmas or New Year's periods. The Christmas period is defined as December 24, 25 and 26. The New Year's period is defined as December 31 and January 1.

The above shall not apply to any area where employees normally work Monday to Friday and/or are not normally scheduled to work on Christmas Day, Boxing Day and New Year's Day, unless operationally feasible. In addition, weekend workers will be required to work as per their regular schedule.

Employees may be required to work either the Christmas period, or New Year's period, on alternate years and shifts, as required by the Hospital. Job share lines will only be required to work either Christmas period or New Year's period and the partners shall determine how this obligation will be fulfilled. If the job share partners are unable to agree on which portion they will work, the Hospital shall schedule such work and the job sharer shall work in accordance with the posted schedule. Any changes made after the schedule has been posted must be arranged as per the Collective Agreement.

Requests for a preferred period of time off (days off in conjunction and contiguous to either the Christmas or New Year's period) must be submitted by the employee to the manager by October 1st of each year. Requests will be approved on the basis of seniority, where there is a conflict. The Holiday schedule will be posted by November 1st.

If it is operationally possible to schedule employees to have both Christmas and New Year's periods off, this will be scheduled on a rotational basis starting with the most senior (full and part-time staff) who has never had both off in a working year and who makes this request in writing. If an employee has been scheduled to be off work both Christmas and New Year's in one year, and, if such employee is required to be scheduled to work the following year, such employee will be scheduled to work the opposite of what they were last scheduled to work in the holiday season.

Should it not be operationally possible to schedule staff according to their period last worked, the Hospital will ask for volunteers. If there are no volunteers, the Hospital will supply the Bargaining Unit President with a list of the unit(s), shifts(s) and nurse(s) affected 10 days prior to the posting of the schedule. The parties will then meet to discuss the options available to resolve the operational impact.

Where a patient care area has self-scheduling, the above provisions apply. Where employees schedule themselves to work part of either the Christmas or New Year's period, they must identify which holiday, as per paragraph 1 above, they have worked. If the schedule is incomplete for required unit coverage, the manager may schedule in accordance with these provisions.

Employees who are absent in any year from December 15 through to January 10 inclusive may be scheduled at the discretion of the hospital to work either the Christmas period or New Year's period upon their return.

At the request of the employee the consecutive days off as noted above may be scheduled during the period of December 1st to January 10th to facilitate their cultural preferences.

(h) Permanent Tours

i) Consideration will be given by the Hospital to an employee who requests to work evening or night shifts on a permanent basis. The request and the Hospital's response will be in writing.

Termination of this arrangement, by either the Hospital or employee, can occur with notice of two weeks plus one complete scheduling period.

ii) An employee scheduled to work steady night tours shall have her weekend off scheduled on a Friday and Saturday.

iii) It is understood that an employee working permanent evening or night tours may be scheduled by the Hospital to the day tour for three (3) shifts each quarter.
