A complaint was made to the MOL regarding the threat of workplace violence in the Emergency Room (ER).

This Inspector was advised that last week, a patient was brought into the ER by several OPP Officers and placed in room 12. Room 12 is designated for patients who have mental health issues or may be admitted under a Form 1.

The patient was exhibiting violent behaviour and was sedated while being physically restrained by the OPP Officers. After the patient was sedated, the room to door 12 was locked with the patient inside. The patient became violent in the room and began to kick the door.

This Inspector determined that there is no written procedure in place to address the staffing required when dealing with patients who may be a risk of workplace violence. ORDER ISSUED. In this specific incident, the OPP left the patient and had to be called back as in house security were not able to manage the patient.

The Employer shall also assess the risk of workplace violence in room 12 as materials that go in and out of room 12 are not currently being accounted for (i.e. utensils). In addition, the Employer shall also assess the room for suitability for mental health patients (i.e. accounting for all screws in tight covers when a patient leaves the room). ORDER ISSUED

Room 13 is being used for patients under Form 1. The room can be locked from the inside by patients and the room/door does not have a window or camera in it. ORDER ISSUED.

A 3-hole paper punch weighing approximately 1kg was on a counter and was easily accessible to anyone for potential use as a weapon. The Employer is advised to assess the entire ER and only have medically required devices/equipment in open areas. Any material, article or thing that could be used as a weapon shall not be stored in open areas.
