Version 2 – February 1, 2022
An Introduction to ONA Education

This brochure provides you with information about ONA education offerings and what we have planned for the future. We continue to update education to respond to member needs, so please visit the Education page of ONA’s website for the latest information and related documents.

The Workshop Calendar

Available on ONA’s website, the Workshop Calendar displays all scheduled education.

The Benefits of Participating in ONA Education

- Gaining a better understanding of how the collective agreement and legislation impacts members’ workplaces and work lives.
- Understanding ONA’s governance structure at Provincial, Local and Bargaining Unit levels.
- Developing skills to enable members to take on leadership roles at the Bargaining Unit, Local and Provincial levels.
- Developing the skills required to represent members in all aspects of service delivery so that members’ rights are protected and their terms and conditions of employment adhere to the Collective Agreement.

Other benefits of attending ONA education include:
The Regulated Health Professions Act requires all regulated health professionals to participate in a Quality Assurance Program (QAP). Several of ONA’s workshops may help satisfy members’ obligations under the College of Nurses of Ontario (CNO) QAP.

Participating in ONA Education: How to Register and What to Expect

Attendance at ONA workshops is FREE for all members and CNSA students!

If you are interested in attending a workshop, please complete our online Workshop Registration Form by the registration deadline date. When your form has been processed, you will receive a registration confirmation email that includes additional information and instructions on attending the workshop.
If you wish to obtain reimbursement for meals, accommodation, salary or travel (MAST) related to your attendance at a workshop, you must obtain approval from your Local prior to attending a workshop. Reimbursement for MAST is determined by your Local’s policy. Please contact your Local Coordinator for funding approval.

If you are not seeking funding for your participation in an ONA workshop, letting your Local know of your interest in ONA education is a great idea – this helps them know who in their membership is informed, could be a potential resource and who they could source for succession planning!

ONA workshops are available to non-ONA members upon invitation by the Local at a cost of $100 per person, per day.

**Workshops delivered via Zoom**

Members can expect an interactive workshop as the tools and features available in Zoom provide the ability to share thoughts, discuss the topic at hand, watch videos, participate in polls and provide an anonymous evaluation of the workshop at the end of the session.

Members will need to have the following in order to participate:

- A device that has good quality speakers, a microphone (this is usually integrated in newer devices), a web cam, and an internet connection.
- The Zoom App downloaded on their device in advance of the workshop.

2022 Provincial Education

Provincial Leadership Meeting

This year’s Provincial Leadership Meeting, scheduled on March 23 and 24, via technology, will continue the conversation from last year’s Biennial Convention that focused our attention on the upcoming Provincial Election in June 2022.

On March 23, the session entitled ‘Building a Collective Vision in Health Care Delivery – Part II’, will help participants understand the importance of engaging members (mobilizing members for the election, reviewing the Biennial visioning results) and Ontarians in the political process (Strategic Plan Priority Members Informed). Participants will also understand the importance of communicating our message to grass roots members and Ontarians who will vote in the election (Strategic Plan Priority Members Informed & Telling Ontarians the Truth).

Day 2 will begin with a session on “Communications: a different way” to outline what and how we communicate with members at all levels. The session will demonstrate some of the vehicles we use to deliver our information to members. The day will continue with sector-specific sessions containing topics particular to each sector, and will then round out with an overview of our Diversity, Equity and Inclusion work (Strategic Plan Priority Everyone Included) and a discussion on implementation of the Strategic Plan.

Registration for this event is conducted through an online registration website rather than by Workshop Registration Form. When the website is ready, the link will be posted on ONA’s website.

Health & Safety Caucus

Each May, the Health and Safety Caucus is delivered in each region, often attached to the region’s Area Coordinators Conference.

The topic of the Caucus changes each year and is determined by staff and the Board based on hot issues emerging in the area of health and safety. A memo will be delivered to leaders detailing the topic of this year’s Caucus once details are organized.
Target audience:
- Bargaining Unit Health and Safety representatives
- Front-line members
- Union representatives
- Bargaining Unit Presidents
- Local Coordinators

Registration for the Caucus is conducted through an online registration website rather than by Workshop Registration Form. When the website is ready, the link will be posted on ONA’s website.

This year’s Health and Safety Caucus dates have been decided. They are:
- Region 1: May 20
- Region 2: May 16
- Region 3: May 26
- Region 4: May 3
- Region 5: May 18

2022 Leadership Summit

The last two Leadership Summit events, originally scheduled for September 2020 and September 2021, had to be cancelled due to the COVID-19 pandemic. Confirmation of this event for September 2022 will be determined at a future date as we move through vaccination implementation and changes to government restrictions. Updated information will be posted on our Leadership Summit web page as soon as it is available.

November Provincial Coordinators Meeting Education

November 10, 2022, tentatively 0800 – 1200, topic to be determined.

New Executive Partnership Workshops

Local leadership is a critical component to member engagement, support and the relationship between the Local Coordinator and Local Treasurer. This relationship is crucial to the operation of the Local. These Partnership Workshops bring Local Coordinators and Treasurers, who are new to their position, together to explore their roles, responsibilities and working relationship to support the administration of the Local. The first workshop (day 1) brings the entire group together to focus on collaboration and responsibilities. The second workshop (days 2 and 3) focus on the specialized skills of each role.

Local Coordinators and Treasurers – December 6, 2022

This program will focus on role accountability and support role clarity. This includes a review of governance requirements, including ONA and Local policies. It will emphasize the unique roles of the Local Coordinator and Local Treasurer, and will explore and support coordination and development of an Executive Partnership of new Local Coordinators and Local Treasurers.
New Local Coordinators – December 7 & 8, 2022
The goal of this workshop is to train new Local Coordinators to coordinate and facilitate the functioning of the Local within the parameters of ONA’s Constitution and ONA provincial policies, and ensure there is effective communication throughout the Local and at all levels of the organization. The Local Coordinator will act as a resource on governance issues and serve as a link between the broader membership and the ONA Board of Directors.

New Treasurers – December 7 & 8, 2022
The goal of this workshop is to train new Local Treasurers on the use of recording transactions in the Sage 50 accounting program, and maintaining financial records in compliance with ONA’s Local provincial policies. As well, it will guide new Local Treasurers on key accounting dates, including reporting to the Canada Revenue Agency (CRA) and Ministry of Finance, and audit deadlines, while ensuring the Local’s financial accountabilities are met.
We have pivoted a great selection of “back to basics” in-person workshops to a digital environment, allowing any member to attend education from the safety of their own space while under government restrictions on mass gatherings.

Your Education Facilitators have created engaging workshops that will provide you with the education you need now to stay safe and know your rights and responsibilities during these challenging times. We look forward to when we can hold in-person workshops again. In the meantime, we will utilize technology to help us engage, educate and exchange.

Digital workshops are open to all members unless indicated as private for a specific Local. Currently available digital workshops are listed below in alphabetical order. Descriptions of the learning points for each, along with the target audience, are provided in the next section of the Brochure.

• Professional Responsibility Representatives
• Bargaining Unit Leadership
In-Person Workshop Listing

Throughout 2022, the MEE Team will be reviewing our existing in-person workshops to determine which topics require updating, and which topics would be suitable for conversion to digital delivery.

The below is our list of workshops that were available for in-person delivery prior to the onset of the global COVID-19 pandemic. We are making this list of workshops and descriptions available to you here so you are aware of what we may be able to offer when it is safe to do so.

Please note that it is not possible to take an in-person workshop and simply deliver it via technology. Our in-person workshops are strategically designed using a model of education specifically geared towards adult learning that is in-person and in groups to facilitate discussion and the sharing of experiences and key learnings.

To ensure a productive and successful experience for attendees in a digital workshop, it is important that we adjust the workshop to be suitable for digital delivery. Please know that we are doing everything we can to quickly learn how best to do this so that attendees gain all of the knowledge and understanding possible, as well as enjoying their time with us and each other!

When it is safe for us to return to in-person teaching, we look forward to publishing a workshop calendar where we will see you in the classroom once again!

In-person workshops are specifically designed in full day, half day or lecturette formats/lengths. In the shorter versions of a workshop, there is less depth in the content of materials delivered due to time constraints. In-person workshops are listed below in alphabetical order:
