

## **ONA Public Service Announcement**

**Nursing Week 2024**

**May 6-12**

Every day, Ontario's nurses are dealing with the difficult challenges of our health-care system, and their value and importance have never been clearer:

Nurses are not an option; they're a necessity.

This nursing week, May 6 to 12, join us in acknowledging the skill and dedication that nurses bring to the wellbeing of their patients. Let the nurses in your community know how much they're appreciated.

A message from the Ontario Nurses' Association
