Tips & Reminders

Did you know that some web browsers are better than others for accessing ONA's eLearning platform?

It's true! The eLearning platform works best when accessed through Firefox, Google Chrome and Safari. Internet Explorer isn't a great browser to use for eLearning.

Firefox   **Google Chrome**   **Safari**

Scan your computer every so often to ensure you have everything required to use the eLearning platform.

New to eLearning

Go here to test your computer to make sure it has the minimum requirements to run ONA eLearning

Once you login to the platform, click on "Go here to test your computer…" to find out if your computer has everything you need to run the platform. If you get all green check-marks, you're good to proceed. If not, simply follow the instructions to upgrade. Doing this scan every so often will ensure your computer is capable of performing all of the activities we have designed in our programs and videos.

Struggling to view more than 1 PDF document at a time in a program?

Some web browsers aren't set up to view more than 1 PDF at a time.
Simply download and save the document to your computer so you can have more than 1 PDF open at a time!
