Gathering the Facts and Documents

*Occupational Health and Safety Act (OHSA)*

Incident Checklist

Purpose of this checklist:

Having all of the facts is essential to enable the union to enforce health and safety rights. This checklist provides ONA with all of the relevant information required to enforce these rights.

It is very important to provide the union with information in a timely manner in order to assess whether a health and safety appeal is required before the Ontario Labour Relations Board. The *Occupational Health and Safety Act (OHSA)* requires appeals to be filed under a strict 30 calendar-day time limit from the issuance of an order or the refusal to make an order or the decision by a Ministry of Labour, Training, and Skills Development (MLTSD) health and safety inspector.

This checklist is divided into four parts to gather all relevant facts:

1. Contact Information;
2. The Incident Description;
3. The Documents to Collect; and
4. Witness Information.
