LETTER OF UNDERSTANDING**BETWEEN**

THE OTTAWA FERTILITY CENTRE
(Hereinafter referred to as “the Employer”)

AND:

ONTARIO NURSES’ ASSOCIATION
(Hereinafter referred to as “the Union”)

Re: Employee Gain Sharing Program

Both ONA and OFC agree that building a high performance organization is important for the long term sustainability, competitiveness, and success of the Ottawa Fertility Centre. In acknowledging the importance of performance, both Parties agree that the pursuit of performance goals and a gain sharing program are in the long-term mutual interests of Employees, physicians, managers, and owners.

The Gain Sharing Program aligns interests of Employees, physicians, managers, and owners by enabling Employees to share in the financial benefits generated through the achievement of performance reward when the clinic meets financial objectives.

Gains in profit are generated in a number of ways including effective Management of growth and productivity improvements. To keep Employees focused on how to achieve gains in overall organization performance, the following key performance dimensions will be tracked and reported to staff on a quarterly basis, as articulated in the Centre’s Balanced Scorecard.

1. Financial Performance: Improvements in productivity are focused on efficient use of human and other resources that are required to deliver services to patients. Metrics on productivity, namely the centre’s operating margin, will be reported quarterly so Employees can know if they are on target to meet gain sharing objectives.
2. Client Services: High levels of client service attract patients and improve patient retention. Metrics on performance for each Employee group will be posted on an annual basis or more frequently as required.
3. Innovation and Learning: While innovation and learning can positively affect all dimensions, quality and quality improvement are the main driver for this dimension. Innovations make the OFC more efficient, improve quality, and ensure the centre is a leader – not only in the provision of clinical services, but also in the way those services are delivered. Quality metrics will be reported quarterly to staff and include quantitative as well as qualitative indicators: pregnancy rates, error rates, incident rates, innovations.

4. Organizations/Employee Wellness: Having a healthy and motivated staff is a fundamental ingredient to the success of the organization. An

Employee satisfaction and wellness survey will be conducted annually and Employees will be engaged to participate in improvement initiatives.

Program Design

Employees will receive a payout equivalent to 30% of net profits earned that are in excess of \$500,000 (amount needed for re-investment on an annual basis) by Ottawa Fertility Centre Inc. and the Ottawa Fertility Ultrasound Corporation. Profits are defined as net income before taxes, depreciation and amortization.

Payout Formula

Profit available for payout = 30% of net income above \$500,000 (EBTDA)

Percentage Profit = $\frac{\text{Profit available for payout}}{\text{Base pay portion of total payroll for the reporting period}}$

Employee portion of payout = (Percentage payout) x (base pay earned during reporting period)

NB: Any income reported in the Ottawa Fertility Centre financial statement that is not generated as a result of activities performed by staff of the Ottawa Fertility Centre or Ottawa Fertility Ultrasound Corporation shall not be included in the income calculated for purpose of the Gain Sharing program.

Eligibility and Payout Rules:

- Employees must have successfully completed their probationary period; the period during which an Employee is on probation shall not be included in the payout calculation.
- Any person who was actively employed during the reporting period is entitled to a payout.
- Employees must receive an overall rating of 'Meets Expectations' on their annual performance review. Employees who are not meeting expectations will know well in advance of a payout and will be given opportunity to address performance issues.

Performance Review and Payout Schedule

Employees will be eligible for annual financial reward in May each year. A final payout will occur in May each year based on the year-end financial statements.

June: Quarterly report to staff on performance of the first quarter (January 1st to March 31st)

September: Mid-year financial performance reported at an all staff meeting with 50% of the performance bonus earned for the period between January 1st and June 30th paid out on September 30th.

December: Quarterly report to staff on performance on the first three quarters (January 1st to September 30th)

May: Year-end financial performance reported at an all staff meeting and funds will be distributed to Employees based on year end performance. Funds distributed in September, if any, will be deducted from the final payout. Employees may elect to have funds deposited into company sponsored pension plans. Note: If the mid-year payout exceeds what would be paid out based on annual performance, the overpayment will be applied to the following year.

Information Sharing:

Financial reports will be prepared and reviewed by an outside accounting firm selected by the Ottawa Fertility Centre. The accountants will report on the Gain Sharing program to verify that the payouts and financial performance are accurate and consistent with how the plan has been communicated to staff.

Future Changes to the Plan

Both Parties agree to review the plan prior to the end of the current Collective Agreement to ensure that it is achieving its intended purpose. Should the plan be extended for subsequent years, the Employer may propose an option to use a 12 month rolling average to determine performance payouts.

Dated at Ottawa, Ontario, this 6-day of February, 2019.
