Re: **Union Perks Plus (UPP)**

C: Board of Directors, Managers

At the September Board meeting, the ONA Board endorsed a new “perk” for ONA members. It is called Union Perks Plus (UPP) <https://unionperksplus.ca/>. This is a new organization focused on providing discounts to union members and their families.

UPP is a new, fun way to shop online, and take advantage of special rates and discounts you will not find anywhere else. As an added bonus, on some name brand products and services, you can even earn cash-back. Exclusively for union members and their families.

I am attaching their promotional slides for your information. I hope our members find some opportunities through this organization. There is no cost to ONA or our members.

When can I expect to receive my cash back?

Cash back earnings will track to your Earnings Page within seven days of your purchase. These earnings are not available to be paid out right away. Each retailer has a return period and once that time has passed, we will make your cash back ‘payable’ and ready to be paid out to you. As long as your payable cash back balance exceeds \$15, you will be able to collect your payment via PayPal quarterly on pay out months January, April, July and October beginning 2022. *Earnings could take upwards of one month.

How the process works is simple, which was important to us as we did not want it to be a complicated process for our members. The whole process starts with the member going onto the UPP website and searching under the categories for the store they are interested in shopping at. Once they find a store, they simply select the ‘Get’ button on the discount and it takes them directly to the website. From there, it is business as usual with zero extra steps unless the selected discount requires an additional discount code upon checkout.

So long as the user shops via the link from UPP to the desired store, UPP takes care of the necessary tracking to ensure the purchase is registered in their system so earnings can be assigned to the user’s account automatically.
